Smart Interactive Light

The brand color seamlessly integrates into the smart interactive light at the top. It provides intelligent feedback on product status for a user-friendly experience.

Metal spray painting

The camera decoration component employs a metal spray painting process, elevating the product's technological aesthetics.

Innovative Architecture

Incorporating the brand symbol into the product design establishes a fresh and innovative product architecture.

6.5-inch HD Display

The N96 boasts a 6.5-inch HD INCELL display with a 1600*720 resolution and five-point touch support. It presents improved screen brightness, narrower bezels, and a higher screen-to-body ratio than the previous generation product(N5).

Optical Bonding

Lightness: 350 Nits

Narrow Bezel: 2.5mm

Clearer and Faster Printing

N96 employs advanced high-pressure printing technology for swift and precise bill printing, achieving speeds of up to 80 mm per second.

High-Pressure
Printing

80 mm/s

58 mm

Fixed PIN Supported

PCI-certified fixed PIN solution in N96 allows visually impaired users to make secure and effortless payments across various scenarios.

Technological Innovation

The N96 significantly enhances wireless sensitivity across all 4G bands, resulting in a 100% increase (+3dB) compared to the previous generation.

Professional Scanner Optional

N96 features a Honeywell decoder platform for its scanner, enabling support for a wide range of symbologies, including 1D, 2D, and OCR.

1280*800 resolution

Global shutter sensor with motion tolerance of 6 m/s

White LED fill light and High Visibility Red Laser

Payment Methods

N96 accepts payments of magstripe cards, IC cards, contactless/NFC and 1D&2D codes.
